Rules

Applicants may submit requests for funding for the following:

Core Support: Core support is unrestricted funding that enables an organisation to carry out its mission by strengthening capacity and sustainability. It can be used to underwrite administrative infrastructure and/or to expand key programmes. Most core support grants are awarded over a two-year period. If you are applying for core support, explain why this additional investment is needed for a two-year period.

Capacity Building: Funding is available for new or enhanced activities aimed at strengthening an organisation's programmatic and/or administrative capacity. Projects must evidence a credible plan for sustaining costs.

Programme: In general, funding for programme development or the expansion of existing programmes will be limited to programmes of clearly demonstrated effectiveness that have a viable fundraising and sustainability plan. On a very selective basis, The Ireland Funds will consider programmes or projects that offer the potential to produce significant impacts.

Size of Awards

The Flagship Grant Round will award up to €/\$100,000 in financial support over a two year period. Additional non-financial supports will also be provided.
