### Why the Young Leaders?

I had been in Australia 5 years and was keen to expand my professional network. My husband worked for IFA Board Chair, Yvonne Le Bas, at the time so I found out about the YLs through him. I went to the kick-off drinks in the Opera Bar and immediately sensed a community I could support. I have also always been involved in different charities so I was delighted to be able to use my skillset for a good cause.

### Why the Young Leaders?

A friend asked me if I was interested in joining and/or helping out. I did partake in the G5K in Centennial Park prior to this and after seeing the impact of the G5K and chatting to Toni I decided to pop along to a YL event. Since then, I have been on the committee for the last three years. It is a great network and community to be involved with and somewhat homely for young Irish Professionals in Australia. In my eyes if there is anything we can do to help those not so privileged or make good, I will give it a go and to be able to forge friendships and alliances along the way is a bonus. A motto I heard before from one of the members is that we give back while having craic along the way!

The first event I attended was the end of year drinks at the Opera Bar in 2019 and straight away I could tell what a wonderful community the Young Leaders was. I wanted to do something with my spare time that allowed me to give back so the Young Leaders was the perfect fit.
