THE FOUR PILLARS OF THE IRELAND FUNDS

THANK YOU

2022 was a year of immediate response to urgent needs and strategic investment in communities across the island of Ireland.

The Heart of the Community Fund saw its second year of providing operational and programmatic support to nonprofit groups working diligently in areas including environmental sustainability and cross-community relations. Our Reconnection Fund ensured that nonprofits serving disadvantaged and marginalized communities were strengthened and vulnerable people were not forgotten.

2022 also saw The Ireland Funds continue its investment in providing access to high-quality education through our scholarship programs: No Mind Left Behind and the George Moore Scholars. Thanks to these programs, hundreds of bright minds have been able to advance their studies, explore their potential, and invest in their futures.

Our Ukrainian Relief Fund deployed support to seven Irish organizations serving the complex needs of refugees fleeing war and arriving in Ireland. Our donors stepped up to support an impactful response to this humanitarian crisis and their compassion has now made a difference to thousands of people in crisis. Thanks to you, these carefully chosen organizations provided key services ranging from provision of much-needed mental health care to resettlement and community integration.

The opportunities we had to connect with you were a highlight of 2022. We worked closely with our donors to connect them with impactful programs and ensured their Donor Advised Gifts had the maximum impact across a broad range of priorities. We welcomed thousands of friends back to our in-person fundraising events. Working with donors and grantees, we translated that love for Ireland into results. This report shares some of the highlights and we hope you will read it with pride. Much remains to be done and as stewards of your investment, we will continue to identify the areas of greatest need and greatest promise.

All across the Republic of Ireland and Northern Ireland, our donors transform lives. Take a look at the headline numbers of 2022 and know that through your generosity, you made this possible.

KIND REGARDS,

In 2022, we worked with our donors to achieve their philanthropic goals with great impact. Our team's understanding of needs and how philanthropy can make a difference across Ireland is unparalleled. This expertise enables us to tailor plans with donors, giving them the freedom to focus on their areas of interest.

The following are just a few examples of the ways The Ireland Funds partnered with donors to make gifts to the causes most important to them.

LEARNING HUB LIMERICK

Learning Hub Limerick works in partnership with parents, educators, statutory agencies and the community to provide a safe, welcoming and inspiring learning environment, broadening the horizons of young people. A 2022 grant enabled Learning Hub Limerick to reach more children in need.

HOW DID WE DELIVER FOR THE ISLAND OF IRELAND IN 2022?

The Heart of The Community Fund

The Ireland Funds Heart of the Community Fund supports organizations working in communities across the island of Ireland.

The essence of The Heart of the Community Fund 2022 grant round was trusting the community and responding to the needs of organizations working within our four pillars of peace, culture, education and community development. We responded to what organizations needed, be that operational or programmatic support, to make the greatest impact.

The Heart of the Community Fund 2022 provided vital support to 77 communities across 23 counties with a fund of \$1,000,000.

HOW DID WE DELIVER FOR THE ISLAND OF IRELAND IN 2022?

The Ireland Funds Reconnection Fund

The impact of COVID-19 is still being felt today, with these groups struggling to reconnect to their communities and the organizations that were providing support to them before the pandemic. The Ireland Funds addressed this disconnection to prevent a severe long-term impact on lives across the island of Ireland.

MENTAL HEALTH

People with mental health issues are disconnected from their support structures.

-

YOUNG PEOPLE

Young people have been disconnected from school and cultural activities.

-

DISADVANTAGED & MARGINALIZED COMMUNITIES

Those who were most socially and economically disadvantaged suffered the most.

The Ireland Funds Reconnection Fund was launched at the end of 2021 and throughout 2022 met the urgent needs of organizations serving these vulnerable groups.

EXAMPLES INCLUDE:

COMMUNITY LAW & MEDIATION

Community Law & Mediation is an independent community law centre providing free legal advice, advocacy, mediation and education services. IMPACT: Funding provided free legal advice clinics on topics such as housing, homelessness, employment, equality, family, consumer, and social welfare law to 120 individuals. It also delivered two virtual 'Know Your Rights' legal information talks to 60 individuals from across the island of Ireland, covering the importance of making a Will and Enduring Power of Attorney.

"Without access to justice, it is impossible to challenge injustice or hold decision makers to account, particularly for vulnerable people or at vulnerable times. Community Law & Mediation is very grateful for this grant which allowed us to meet a real need in communities experiencing poverty, social exclusion or inequality for access to justice."

CRAIGAVON TRAVELLER SUPPORT COMMITTEE

Craigavon Travellers Support Committee improves the quality of life of Travellers in the Craigavon area of Co. Armagh, Northern Ireland, by adopting a community development approach which enables Travellers to articulate their needs and supporting them to ensure these needs are met. IMPACT: Funding financed 50% of the core running costs of the organization's Family Support Service, which worked with 178 families, supporting 381 members of the community. 82% of people accessing this service reported feeling less anxious and more in control of their family's finances as a result of the support provided.

"Dedicated Traveller support services have been decimated in recent years in the North of Ireland. Special thanks are due to funders such as The Ireland Funds, who recognize the need to support and fund core services. Without these services, Craigavon Travellers Support Committee would not be able to deliver a community development program or partake in the development of regional policy and good practice."

WAVE TRAUMA

WAVE Trauma Centre was established during the darkest days of the Troubles in Northern Ireland. Now, it is the largest cross-community victims' group, serving those injured or traumatized by conflict. IMPACT: The Ireland Funds helped establish WAVE by the Sea, a respite center providing space for healing, for reconciliation and for the pursuit of lasting peace. To date, 23 families have benefitted from a weekend away by the sea with 80% reporting positive changes to their mental health and wellbeing.

"We had a fantastic few days, it was just what the family needed."

THE
IRELAND
FUNDS

For over 45 years, our donors have helped The Ireland Funds improve the lives of people in Ireland and around the world. We are proud to support a legacy of philanthropy that impacts the present and invests in the future.

“

I can only say that the support offered by The Ireland Funds is invaluable. Our service users come from traumatic experiences and they left their countries because they were forced to. Most have no access to basic support. Having the funds to help them with essential needs is making a fundamental difference to their path. The team is eternally grateful for the support you have provided.

We thank The Ireland Funds for journeying with us over the past number of years and helping so many children and families to overcome the challenges of COVID-19 quickly, followed by the Ukrainian Crisis. Our community is ever-changing and through the support of The Ireland Funds, the Early Learning Initiative has the flexibility and agility to respond to need and ensure that children continue to play, learn and meet their milestones.

The young people moved from having no confidence to making content and presenting on the radio. Often they started out thinking that they were incompetent – just wanted something to do – now they run the station and edit shows. They have discovered they can manage the technology, speak, host, and lead discussions.

THANK YOU

I want to pay warm tribute to the extraordinary contribution The Ireland Funds has made over the past 45 years to the beautiful island that I have been lucky enough to be born in.

We all know that change is hard to get, but you have stayed the course and remained dedicated to making a difference. Central to that is mobilizing the resources to support those all across Ireland who are trying to make it a fairer, more inclusive and sustainable place. While much progress has been made, much remains to be done. Your careful work is still very much required.
