HONORING THE CONLEY FAMILY

Daniel II, Ryan, Sean and Daniel

FOUNDED IN 1994, Northern Litho, LLC (NL) is a family operated mobile Urology services company headquartered in Naples, Florida. Under the leadership of the Conley family, Northern Litho has grown into the nation's leading mobile lithotripsy provider, operating more than 400 mobile urological units across approximately 40 states.

For more than 25 years, Northern Litho has distinguished itself through a commitment to technological innovation, exceptional patient care, and personalized service. The company has consistently expanded its footprint by delivering state-of-the-art urological solutions while maintaining the flexibility and responsiveness that only a family-run organization can provide. Throughout its history, NL has successfully partnered with and transitioned thousands of hospitals, ambulatory surgery centers, and physician practices nationwide, helping them achieve superior clinical and operational outcomes.

Beyond its leadership in the private sector, Northern Litho has embraced an academic approach to advancing urological care. The company collaborates with premier institutions, including Cornell University, Columbia University, Yale University, the University of Miami, Mayo Clinic, and the University of California, San Francisco, to support continuing education initiatives and promote best practices in patient treatment. Through comprehensive quality assurance programs, standardized protocols, and robust data collection systems, Northern Litho consistently exceeds industry benchmarks for clinical performance and patient outcomes.

At the core of Northern Litho's success is its belief in transparent communication and strong physician partnerships. The company's relationship-driven business model emphasizes accessibility, accountability, and collaboration, offering an alternative to the complex administrative structures often found in larger organizations. By investing in advanced technology, prioritizing customer service, and building an administrative infrastructure designed to support physicians at every level, Northern Litho continues to elevate the standard of care while helping healthcare providers deliver the best possible outcomes for their patients.
